## "FROM FACTORY TO HOME"

HOW OFTEN YOU SEE THIS HEAD-LINE

All the goods we have in our homes must come from the factory, but the question is how many hands do the goods go through before they reach the home. In buying from the smaller dealers one has to pay one or two jobbers' profits. In buying from THIS STORE you save this extra expense, for nearly everything is bought direct from the factory in carload lots, which brings to mind the motto: "Goods well bought are half sold."

### Our Carpet Department

Is filled with all the newest ideas in Floor Coverings. We are mill agents for the famous "Park Mill All Wool Carpets" and sell them the same as the ordinary wool carpets are sold. It's to YOUR ADVANTAGE to buy these. Our display of Room-sized Rugs surprises all who visit our store, even though they have seen the goods in larger cities. They say: "You sell cheaper here than any place we've found, and such a large assortment to select from, too."

### Our Furniture Department

The same story applies to our Furniture. We are showing the largest line of Chamber Suits, Dining-room Furniture, Iron Beds, Hall Furniture, Library and Parlor Tables, Fancy Chairs and Rockers and all the newest creations in Furniture Novelties ever shown in this section.

Our Special For the Remainder of This Week, One Hundred Smyrna Rugs, 30 x 60, in Good Colors, at 98c. Sale Closes September 7th.

### A. P. ABBOTT & CO. A. P. ABBOTT & CO. A. P. ABBOTT & CO.

## The Daylight Store

Farewell to Summer Goods!  
Early Display of Fall Suits!

Our sale of Summer Suits last week cleared our racks and in their place you will find the New Fall Suits, which are already being called for by those who are looking for the up-to-date garment for immediate use. In our showing of Suits are some of the best numbers picked from a few of the best New York Suit houses. In our north show window are displayed a few of the leading styles.

### LADIES' TAILORED SUITS.

To start the season we are showing some extra good numbers in Ladies' and Misses' Tailored Suits.

A line of Suits which we are showing in broadcloth are of unusual worth. These are Suits we have bought in three different styles and they come in all colors and black. Same are made by one of our best New York houses and are made for a regular \$20.00 Suit. We are showing them as a special at \$18.00. Compare the quality of material with Suits at \$22.00.

The loose New England cut of Suit is one of the leaders. The tailoring of the garment gives it a finish and style which attracts the majority of buyers.

What remain of Coats and Suits we had in our clean-up sale will be left at the sale price. We intended to put them back to half price, but there are so few left we will close them at \$3.98, \$5.98 and \$7.98.

## A. P. ABBOTT & CO.

### COLLEGE AND SCHOOL.

The study of law is increasing at German universities, while that of theology is decreasing.  
Nine scholarships have been won at Cambridge by boys of the City of London school. Three were for classics, three for science, two for mathematics and one for modern languages.

According to Consul General T. St. John Gaffney of Dresden, during the winter 1906-07 the twenty-one universities of Germany were attended by 45,136 students, of whom 254 were women.

Oxford wants funds to enable it to remove the slar that it is the only university in England at present unable to qualify by degree a candidate for admission to the Institution of Civil Engineers.

### INDUSTRIAL ITEMS.

A firm has been organized at Veedersburg, Ind., for the manufacture of bottles from paper.  
On account of the ravages of phylloxera no Tokay wine will be produced in Austria this year.

Mining rules in Pennsylvania have to be printed in thirty-two languages to reach all nationalities employed.  
On account of the high price of copper the pinmakers of Birmingham, England, are now making preparations to manufacture a large proportion of their pins of steel instead of brass.

Germany exports more than 3,000,000,000 lead pencils every twelve months. They are shipped to foreign countries at the rate of over 10,000,000 a day, counting six days to the week.

### Electric Sparks.

The telephone system of England will be nationalized and pass into government ownership in 1912.  
A Japanese electrician has invented a wireless system which is asserted to be superior to anything now in use.

Electric train lighting is more general abroad than in this country, because the runs are much shorter and the battery system is therefore practical there.

### The Old Suez Canal.

Few people are aware that there had been a canal across the Isthmus of Suez before De Lesseps ever conceived the idea of his monumental enterprise. A canal across the Isthmus was actually constructed 600 years before the Christian era and served as a waterway for small vessels until about 1,000 years ago, when it was allowed to fall into disuse.

Napoleon revived the idea and instructed one of the great engineers of his day to investigate the matter, but though a favorable report was presented to him, in which M. Lepere recommended the restoration of the canal, the work itself was never touched.

When M. de Lesseps undertook the task of cutting the canal he thought at first to follow the idea of Napoleon and restore the ancient waterway, but this plan was abandoned and the present plan determined upon.
